

WE ARE READY. FOR YOUR IDEAS!

Join the new flagship project for the aeronautics and space sector in Bremen. Our new space incubator is set to take on startups from Bremen. Support to startups from other federal states in Northern Germany is under negotiation.

- › zero equity funding
- › access to space industry and user community
- › close technical and business support
- › shared workspaces

WE ARE READY. FOR YOUR IDEAS!

ESA BIC Northern Germany

ESA BIC NORTHERN GERMANY

The ESA Business Incubation Centre (BIC) Northern Germany is headquartered at the BITZ, within Bremen's largest business and technology centre for high-tech companies and startups. ESA BIC Northern Germany will bring new opportunities to the region and therefore strengthen Bremen's aeronautics and space sector.

It complements the existing aeronautics and space innovation cluster association AVIASPACE and is supported by "Starhaus", a supporter of new businesses and startups.

ESA BIC Northern Germany is managed by AZO, an international networking and branding company for the European space programmes that also manages ESA BIC Bavaria with three locations in southern Germany.

In the future, ESA BIC Northern Germany, is set to expand to the northern states of Hamburg, Lower Saxony, Schleswig-Holstein, Mecklenburg-West Pomerania and Berlin-Brandenburg.

The ESA BIC Northern Germany is operated by AVIASPACE BREMEN e.V. and Bremen's regional development bank, BAB, and managed by AZO. Future regional partners are Hamburg, Lower Saxony, Schleswig-Holstein, Mecklenburg-West-Pomerania and Berlin Brandenburg.
